Re: Methods of Determining Issues

Date: April 1, 2025

WEIU FM determined the issues/program list for the 1st quarter of 2025 by the following methods:

1. Analysis of local news reports from newspapers, television & radio.
2. Feedback from community members via various staff members participating in community service groups in the listening area.
3. Discussion of issues with local and regional officials on a continuing basis.

Please advise if you have any further questions or require further information.

Re: Issues/Programs for WEIU FM

Date: April 1, 2025

The following is the Issues List for the 1st quarter of 2025 of programming on WEIU FM:

1. CHILDREN'S EDUCATION - How are the educational and informational needs of students being met?
2. MINORITY ISSUES - Are the needs of the minority population in east-central Illinois being met? If not, what can be done to improve the situation?
3. ECONOMIC AND AGRICULTURAL CLIMATE - What is the economic climate in our area? With agriculture being the largest industry, how are farmers dealing with the current economic times?
4. CRIME - Is it safe to live in east-central Illinois and what can be done to ensure the continued safety of our residents?
5. GOVERNMENT - What are the key issues in government, both state and federal, that are affecting east-central Illinois?
6. HEALTH – What are the health issues affecting those who live in east-central Illinois? What new medical advances are now available? Are there preventative health care issues that need to be examined?

### 1. Children's Education

### 3. Economic and Agriculture Climate

| Program Title       | Time                   | Date   | Source   | Length     | Description                                                                                                                                                                                                      |
|---------------------|------------------------|--------|----------|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Climate Connections | 12:50pm                | 1/1/25 | Recorded | 2 Minutes  | How does the mountain lion cross the road? A federal law includes funding for wildlife over-or-underpasses, making it easier for them to escape wildfires and other extreme events.                              |
| News                | 6:15am; 7:15am; 8:15am | 1/2/25 | Live     | 10 seconds | GasBuddy projects that the yearly national average for gasoline in 2025 will decline to \$3.22 per gallon, down from \$3.33 in 2024 and significantly below the record highs of 2022.                            |
| News                | 6:15am; 7:15am; 8:15am | 1/2/25 | Live     | 10 seconds | Starting with the new year, all Eastern Illinois University position announcements are required to include pay and benefits information.                                                                         |
| News                | 6:45am; 7:45am; 8:45am | 1/2/25 | Live     | 30 seconds | GasBuddy projects that the yearly national average for gasoline in 2025 will decline to \$3.22 per gallon, down from \$3.33 in 2024 and significantly below the record highs of 2022.                            |
| News                | 6:45am; 7:45am; 8:45am | 1/2/25 | Live     | 30 seconds | Starting with the new year, all Eastern Illinois University position announcements are required to include pay and benefits information.                                                                         |
| Climate Connections | 12:50pm                | 1/2/25 | Recorded | 2 Minutes  | How a California demolition project kept 15,000 tons of waste out of the landfill: A work crew in Martinez salvaged marble, granite, and more to reuse in a new county building and plaza.                       |
| News                | 6:15am; 7:15am; 8:15am | 1/3/25 | Live     | 10 seconds | Snow routes will be in effect in Charleston during the snow event we are expecting over the weekend.                                                                                                             |
| News                | 6:15am; 7:15am; 8:15am | 1/3/25 | Live     | 10 seconds | A winter storm is targeting portions of the lower Midwest between Saturday night and Monday evening, bringing travel impacts directly to portions of central and southeast Illinois.                             |
| News                | 6:45am; 7:45am; 8:45am | 1/3/25 | Live     | 30 seconds | Snow routes will be in effect in Charleston during the snow event we are expecting over the weekend.                                                                                                             |
| News                | 6:45am; 7:45am; 8:45am | 1/3/25 | Live     | 30 seconds | A winter storm is targeting portions of the lower Midwest between Saturday night and Monday evening, bringing travel impacts directly to portions of central and southeast Illinois.                             |
| Climate Connections | 12:50pm                | 1/3/25 | Recorded | 2 Minutes  | How bamboo could help lock in carbon and slow climate change: This fast-growing plant absorbs carbon quickly and can be used to manufacture flooring, furniture, and more.                                       |
| News                | 6:15am; 7:15am; 8:15am | 1/6/25 | Live     | 10 seconds | A major winter blast of snow, ice, high winds and plunging temperatures are stirring up dangerous conditions across the U.S. central and southern states all the way to the East Coast.                          |
| News                | 6:15am; 7:15am; 8:15am | 1/6/25 | Live     | 10 seconds | Road conditions began deteriorating Sunday in several Midwest states, with forecasts calling for harsh winter conditions to spread eastward in the coming days.                                                  |
| News                | 6:15am; 7:15am; 8:15am | 1/6/25 | Live     | 10 seconds | The storm is expected to reach the Mid-Atlantic states on Monday and bitter cold temperatures could grip much of the East Coast deep into the South.                                                             |
| News                | 6:45am; 7:45am; 8:45am | 1/6/25 | Live     | 30 seconds | A major winter blast of snow, ice, high winds and plunging temperatures are stirring up dangerous conditions across the U.S. central and southern states all the way to the East Coast.                          |
| News                | 6:45am; 7:45am; 8:45am | 1/6/25 | Live     | 30 seconds | Road conditions began deteriorating Sunday in several Midwest states, with forecasts calling for harsh winter conditions to spread eastward in the coming days.                                                  |
| News                | 6:45am; 7:45am; 8:45am | 1/6/25 | Live     | 30 seconds | The storm is expected to reach the Mid-Atlantic states on Monday and bitter cold temperatures could grip much of the East Coast deep into the South.                                                             |
| Climate Connections | 12:50pm                | 1/6/25 | Recorded | 2 Minutes  | How weather disasters strain animal shelters: Humans aren't the only ones who need help when the worst happens.                                                                                                  |
| News                | 6:15am; 7:15am; 8:15am | 1/7/25 | Live     | 10 seconds | Much of the U.S. is being blasted by ice, snow and wind, as the polar vortex that dipped south over the weekend is keeping an area stretching from the Rocky Mountains to the coast of Maine in its frigid grip. |
| News                | 6:15am; 7:15am; 8:15am | 1/7/25 | Live     | 10 seconds | Average gasoline prices in Illinois are unchanged in the last week, averaging \$3.18/g today, according to GasBuddy's survey of 4,378 stations in Illinois.                                                      |
| News                | 6:45am; 7:45am; 8:45am | 1/7/25 | Live     | 30 seconds | Average gasoline prices in Illinois are unchanged in the last week, averaging \$3.18/g today, according to GasBuddy's survey of 4,378 stations in Illinois.                                                      |
| Climate Connections | 12:50pm                | 1/7/25 | Recorded | 2 Minutes  | A company's quest to make EV charging stations more reliable: If the charging network grows more dependable, more drivers are likely to go electric.                                                             |
| Climate Connections | 12:50pm                | 1/8/25 | Recorded | 2 Minutes  | Device inspired by a moth could help protect bats from wind turbine strikes: It uses high-frequency sounds to deter bats.                                                                                        |

|                     |                        |         |          |            |                                                                                                                                                                                                                                              |
|---------------------|------------------------|---------|----------|------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| News                | 6:15am; 7:15am; 8:15am | 1/9/25  | Live     | 10 seconds | Ameren Illinois is ready for a blast of arctic temperatures forecast in the Midwest early next week thanks to improvements in the resiliency of its natural gas delivery infrastructure and upgrades to its underground storage capabilities |
| Climate Connections | 12:50pm                | 1/9/25  | Recorded | 2 Minutes  | Canadian career center helps connect young people with environmental careers: Thousands have already used the center's resources                                                                                                             |
| Climate Connections | 12:50pm                | 1/10/25 | Recorded | 2 Minutes  | Smarter EV charging could ease the strain on the electric grid: Software can help drivers charge when renewable energy is available and electricity demand is low.                                                                           |
| News                | 6:15am; 7:15am; 8:15am | 1/13/25 | Live     | 10 seconds | Average gasoline prices in Illinois have risen 2.5 cents per gallon in the last week, averaging \$3.21/g today, according to GasBuddy's survey of 4,378 stations in Illinois.                                                                |
| News                | 6:15am; 7:15am; 8:15am | 1/13/25 | Live     | 10 seconds | Scientists say last week's extreme weather across the United States is one of the hallmarks of climate change.                                                                                                                               |
| News                | 6:45am; 7:45am; 8:45am | 1/13/25 | Live     | 30 seconds | Average gasoline prices in Illinois have risen 2.5 cents per gallon in the last week, averaging \$3.21/g today, according to GasBuddy's survey of 4,378 stations in Illinois.                                                                |
| Climate Connections | 12:50pm                | 1/13/25 | Recorded | 2 Minutes  | Prairie dogs are in trouble as the climate warms: The animals are critical to ecosystems in the Great Plains.                                                                                                                                |
| Climate Connections | 12:50pm                | 1/14/25 | Recorded | 2 Minutes  | Solar jobs come in many shapes and sizes: Careers in solar span engineering, marketing, and construction.                                                                                                                                    |
| News                | 6:15am; 7:15am; 8:15am | 1/15/25 | Live     | 10 seconds | The United States is experiencing an egg shortage due to avian flu and the U-S-D-A says the situation may not improve anytime soon.                                                                                                          |
| News                | 6:45am; 7:45am; 8:45am | 1/15/25 | Live     | 30 seconds | The United States is experiencing an egg shortage due to avian flu and the U-S-D-A says the situation may not improve anytime soon.                                                                                                          |
| Climate Connections | 12:50pm                | 1/15/25 | Recorded | 2 Minutes  | Why a comedian is using jokes to talk about climate change: Most people think it's no laughing matter.                                                                                                                                       |
| News                | 6:15am; 7:15am; 8:15am | 1/16/25 | Live     | 10 seconds | State officials say Fichtl Processing and Slaughtering is investing 2 point 5 million dollars to build a new meat processing and packaging facility in Dieterich.                                                                            |
| News                | 6:45am; 7:45am; 8:45am | 1/16/25 | Live     | 30 seconds | State officials say Fichtl Processing and Slaughtering is investing 2 point 5 million dollars to build a new meat processing and packaging facility in Dieterich.                                                                            |
| Climate Connections | 12:50pm                | 1/16/25 | Recorded | 2 Minutes  | When the grid goes down, solar power can step up: Low-pollution solar-powered generators can help communities in crisis.                                                                                                                     |
| News                | 6:15am; 7:15am; 8:15am | 1/17/25 | Live     | 10 seconds | According to GasBuddy's survey of over 4000 stations in Illinois the average gas price in Charleston is about 3.07.                                                                                                                          |
| Climate Connections | 12:50pm                | 1/17/25 | Recorded | 2 Minutes  | Rescue dogs sniff out scat to help protect an endangered species: The dogs are helping to monitor the San Joaquin kit fox, which lives in a part of California where solar farms are growing rapidly.                                        |
| Climate Connections | 12:50pm                | 1/20/25 | Recorded | 2 Minutes  | Moose vs. ticks: a battle of giants and bloodsuckers: Winter ticks are tiny, but their impact on moose is massive – and climate change is worsening the threat.                                                                              |
| News                | 6:15am; 7:15am; 8:15am | 1/21/25 | Live     | 10 seconds | Average gasoline prices in Illinois have risen 2.5 cents per gallon in the last week, averaging \$3.23/g today, according to GasBuddy's survey of 4,378 stations in Illinois.                                                                |
